2. In the menu, you will see the various categories of video Kanopy has to offer:

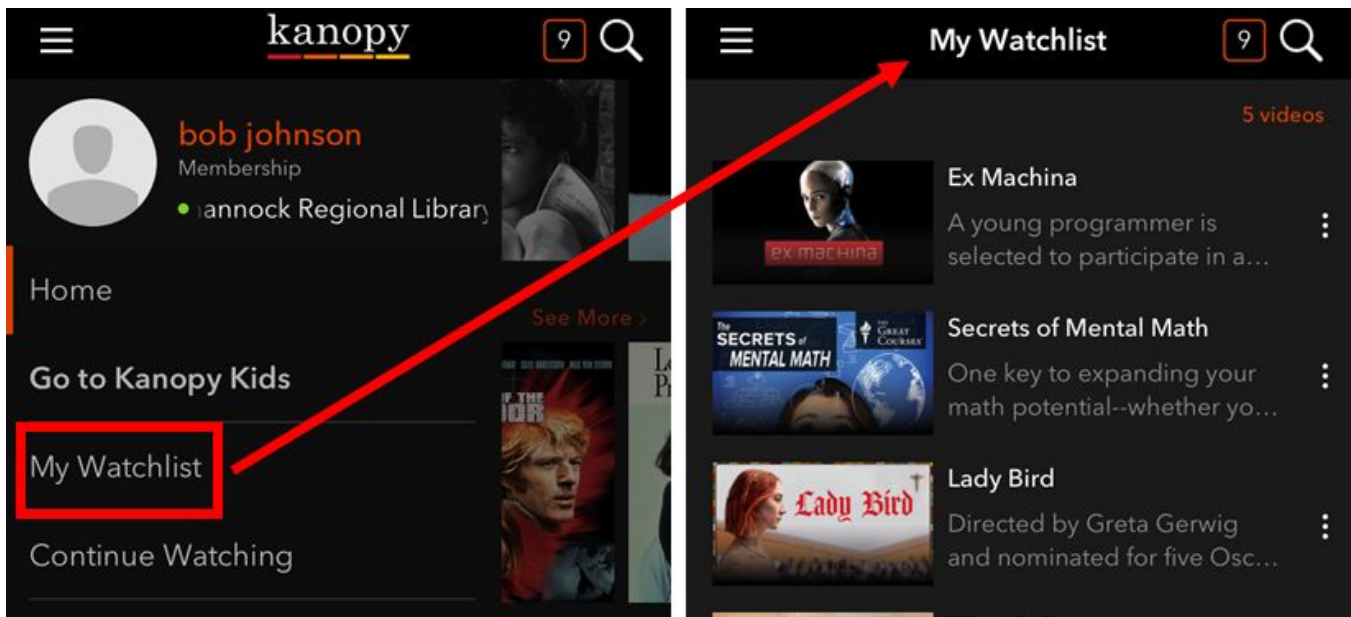

3. Tap the icon in the upper right to search for a video. Tap the thumbnail of the video to find out more about it:

4. You will see a description of the movie, along with the option to tap **+Watchlist** to keep track of the movie so that you may view it later:

To view the videos you have added to your watchlist, tap the ▤ icon in the upper-left corner, and tap **My Watchlist**
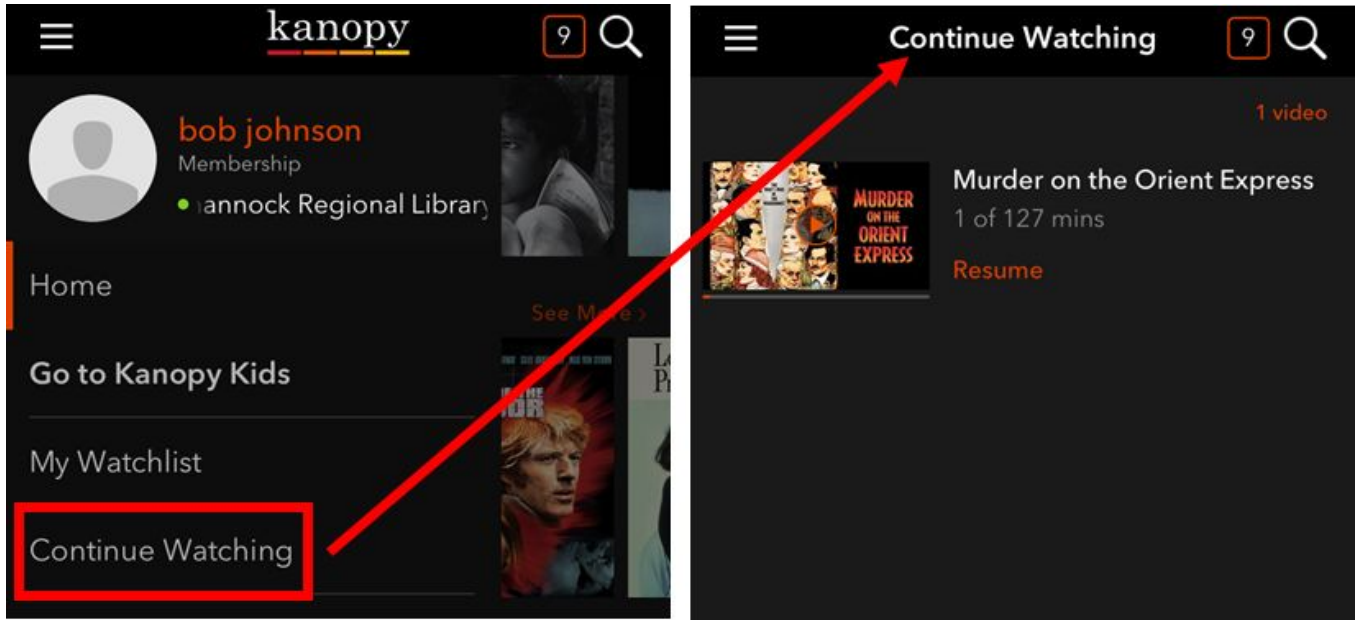

5. On the movie title page, tap the play button in the middle of the thumbnail to begin watching. You will have 48 hours from this time to finish watching the video.

6. When you stop watching the video, notice that the number in the upper-right corner has decreased by one, indicating the number of videos you have left to watch for the rest of the month. If you watch the video again after the 48 hour viewing period has expired, your available number of views will drop by one again.

7. If you stop watching and want to continue later and are still within the 48-hour check-out period, tap the ☰ icon in the upper-left corner and tap **Continue Watching**. You may also tap **My Watchlist** to view other videos that you wanted to keep track of.

2. Sign in with the email address and password you used to create your Kanopy account, if you have not already:
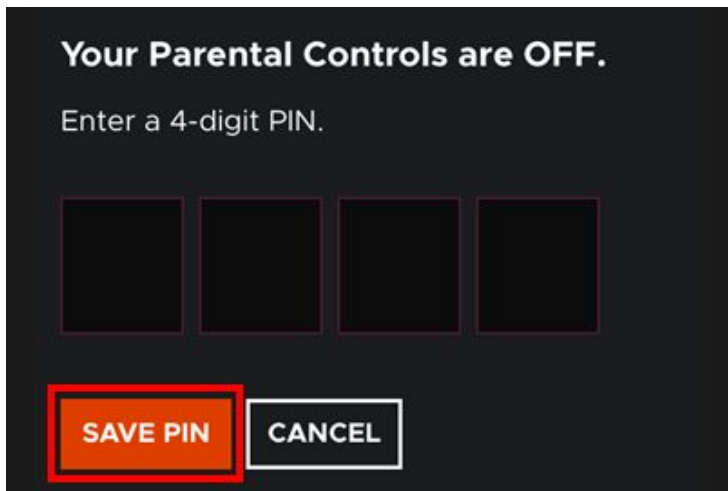

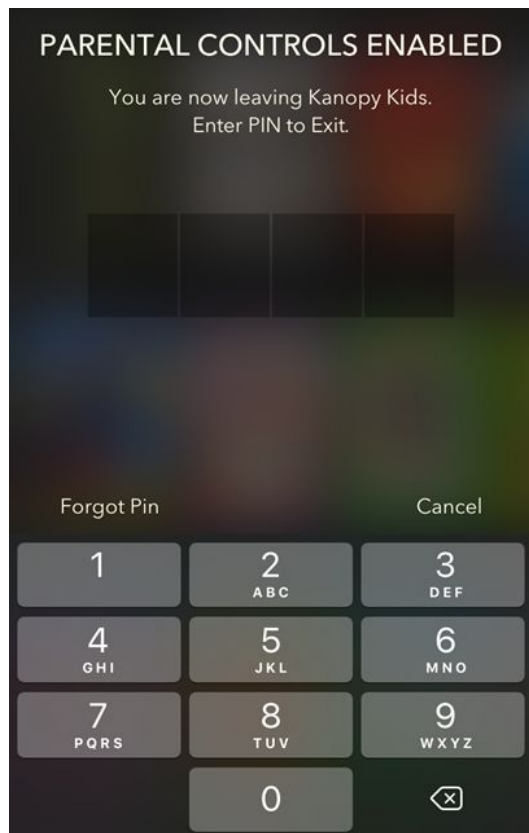

3. Tap the **Turn On** button at the bottom of the screen:

4. Enter a 4-digit PIN, and tap the **SAVE PIN** button. You will then get an indication that parental controls are turned on.

5. The next time you go to Kanopy Kids and try to exit out of it, you will be asked to enter your PIN:
