Get an Adobe ID

An Adobe ID is a free account from Adobe.com. PocketBook Reader, the app you'll download to read EBSCOhost eBooks, uses copy-protection technology from Adobe. It requires this account in order to track check-out periods and return dates of eBooks from EBSCOhost.

1. Open the Safari browser:

2. Go to www.adobe.com and click the **Sign In** link in the upper-right corner:

3. On the Sign in screen, tap the link that reads **Get an Adobe ID**:

The screenshot shows the 'Sign in' screen. It features a title 'Sign in' at the top left. Below the title are two input fields: 'Email address' and 'Password'. Under the 'Email address' field, there is a checked checkbox labeled 'Stay signed in' and a blue link 'Forgot password?'. A blue 'Sign in' button is positioned below these elements. At the bottom left, the text 'Not a member yet?' is followed by a blue link 'Get an Adobe ID', which is highlighted with a red rectangular box.

4. Fill out the form with the necessary information and then tap the **Sign up** button. Make a note of what email address and password you use to create the ID.

Below these are three more input fields: 'Email address', 'Password', and a dropdown menu currently showing 'United States'. Below the dropdown menu is the text 'Date of birth' with a question mark icon, followed by three dropdown menus for 'Month', 'Day', and 'Year'. Below these fields is the text 'By clicking "Sign up" I agree that:' followed by two bullet points: 'I have read and accepted the [Terms of Use](#).' and 'The [Adobe family of companies](#) may keep me informed with [personalized](#) emails about products and services.' Below the bullet points is the text 'See our [Privacy Policy](#) for more details or to opt-out at any time.' At the bottom left, a blue 'Sign up' button is highlighted with a red rectangular box.
